

## TECCRETE STONE SYSTEM

Rock Solid, Extraordinary Beauty!

The TecCrete System has been an industry leader for over 30 years as the original concrete surface panel. Now, it has a beautiful stone finish along with its industry leading loading performance. TecCrete Stone combines natural stone aesthetics with best-in-class TecCrete performance.

### UNDERSTRUCTURE

Bolted stringer and corner-lock systems

### PANEL DIMENSIONS

Imperial - 24" x 24"

### THICKNESS

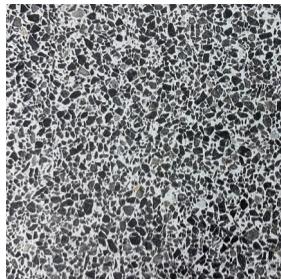

Nominal 1.125" or 1.5"

### FEATURES

- Natural stone aesthetics, including variations in shading
- Color and appearance can change based on lighting conditions.
- Monolithic look with an industry leading static and dynamic loading performance
- Solid feel underfoot and high level of acoustical performance
- Height Adjustable from 3"-54"
- Integral finish facilitates quick and easy access to underfloor plenum
- Flat bottom and uniform thickness maximizes underfloor clearance
- 58% recycled content (LEED MR 4.1 & 4.2)
- Greenguard Gold Certification

# TECCRETE STONE SYSTEM

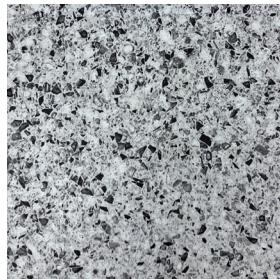

## COLOR OFFERINGS

P102 DARK STONE

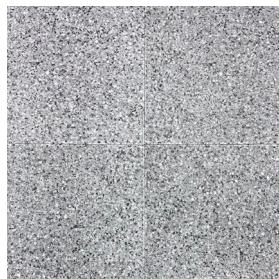

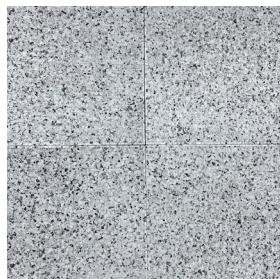

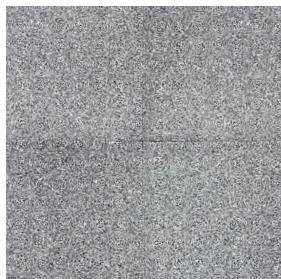

P104 SPECKLED STONE

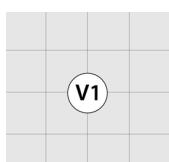

P105 LIGHT STONE

P106 GREY STONE

## FINISH SHADE VARIATIONS

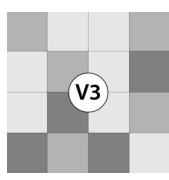

### V1 Uniform Appearance

Minimal differences between tiles in the same production run.

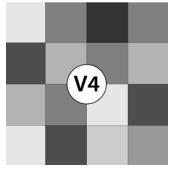

### V2 Slight Variation

Tiles with a V2 rating exhibit slight color variation. **The TecCrete Stone falls within the V2 Category.**

### V3 Moderate Variation

Tiles with a V3 rating show moderate color variation.

### V4 Substantial Variation

Tiles with a V4 rating have substantial color variation.

## ASTM C627 ROBINSON-TYPE FLOOR TEST

TecCrete Stone passed Cycles 1-10 which classifies it in the moderate abrasion category.

**Note:** Field applied sealer is recommended

<b>SERVICE REQUIREMENTS</b>	Find required performance level and choose installation method that meets or exceeds it. Performance results are based on cements, tile meeting ANSI A118.1 or tile designated by tile manufacturer.
<b>EXTRA HEAVY</b>	Extra heavy and high-impact use in food plants, dairies, breweries, and kitchens. Requires quarry tile, packing house tile, or tile designated by the manufacturer. (Passes ASTM C627 cycles 1 through 140.)
<b>HEAVY</b>	Shopping malls, stores, commercial kitchens, work areas, laboratories, auto showrooms and service areas, shipping/ receiving, and exterior decks. (Passes ASTM C627 cycles 1 through 115.)
<b>MODERATE</b>	<b>Normal commercial and light institutional use in outside space of restaurants and hospitals. (Passes ASTM C627 cycles 1 through 50.)</b>
<b>LIGHT</b>	Light commercial use in office space, reception areas, kitchens, and bathrooms. (Passes ASTM C627 cycles 1 through 6.)
<b>RESIDENTIAL</b>	Kitchens, bathrooms, and rooms. (Passes ASTM C627 cycles 1 through 3.)
